THE SAMPLE MARKET

How it Will Increase the Car Shortage

From time to time the grain growers of Western Canada are faced with problems affecting the disposal of the products of their labor; questions that require the most careful consideration. To come to a satisfactory conclusion on these vexing problems demands a thorough investigation of all the possible results which would arise from the adoption of the proposed scheme. To attain this, actual studies of the operation of the proposed scheme are obtained by parties interested in securing pecuniary advantages.

Such a scheme is the one now before the Western grain growers, in which an effort is being made to establish a sample market for the handling of grain. The intermediary benefit of such a market are extolled while the injuries that would result from it are utterly ignored. Chief among the faults that may be found with the proposed scheme is the greater length of time which would be consumed in conveying the grain from the point of shipment to the lake front.

Every farmer knows the value of the rapid transit of grain from the farm to the market. The prospect from one end of the country to the other is that the grain will be slow in moving the crop. There are a few cases and instances of this power. And yet the establishment of a sample market would further lengthen the time of transit and lessen the abilities of the railways to handle the crop.

Next fall, one of the railways will be hauling into Winnipeg at least 500,000 bushels of grain every day. Should a sample market be established there would be a considerable increase in loads in sample, and ordered out not to be hauled to the lake front, but to be sent to the lake front in a car each order is received, so that there will have to be a rule for starting switching cars every night after five o'clock. This means, therefore, that a car of grain reaching Winnipeg morning would not start to be switched until after five o'clock on Monday evening, as the grain would not be disposed of at the grain exchange before Monday.

Cars that reached Winnipeg before eleven o'clock Saturday morning and were switched Sunday morning would be shipped on Sunday. But Sunday there would be no grain moving out of Winnipeg. That means that practically no grain would be shipped out of Winnipeg for twenty-four hours each week. The same would occur on Wednesday, Thursday and the other holidays.

Making the very best allowances it means that one day in every seven would be lost, and there are only seven days in a week. This means, therefore, that the ability of the railways to move the crop would be lessened by one day in every seven, or roughly speaking, the transportation facilities of the railways of the Northwest would be cut down by about sixteen per cent.

Then, taking into consideration the fact that what takes place at the lake front through the railway is the first part of the week of work to be held up of Winnipeg for twenty-four hours each week. This means that the power of the railways to move the crop would be lessened by one day in every seven, or roughly speaking, the transportation facilities of the railways of the Northwest would be cut down by about sixteen per cent.

Then, taking into consideration the fact that what takes place at the lake front through the railway is the first part of the week of work to be held up of Winnipeg for twenty-four hours each week. This means that the power of the railways to move the crop would be lessened by one day in every seven, or roughly speaking, the transportation facilities of the railways of the Northwest would be cut down by about sixteen per cent.

PRIMITIVE SURGERY

Some Prehistoric Skulls Show Evidence of Trepanning

There is no doubt that some rough form of surgery must have existed from very ancient times. But it is strange to find that no complete and delicate operation as trepanning is one of the oldest.

So far as actual reports go, Hippocrates gives the earliest account. He wrote treatises on fractures, dislocations, and wounds of the head. In these he described the use of the trepan to be followed in case of a fractured skull. His direction was to cut away a piece of bone so that the pressure on the brain might be relieved.

There are also records about this and later of the use of the bone saw for this purpose, which at a time when anaesthetics were undreamed of must have been to say the least, painful.

According to Dr. T. Rice Holmes, the operation of removing the pieces of bone was performed long before historic times. The effects on the skull are easily seen after death, and are visible so long as the bones are preserved.

From inspection of certain skulls of the late stone age in ancient Britain, Dr. Holmes has come to the conclusion that some of these had undergone an operation which must have been performed with a stone instrument—London Standard.

Big Game

A military aviator, Corporal Gilbert, had a "exciting experience" recently. He was flying over the Canadian prairie when he saw a large flock of birds. He was flying very low over some fields, when a farmer, taking his machine for a big bird ran for his life. This was changing on the ground.

MOONEY MAKES THE CRISPEST

CREAMIEST BISCUIT

"LET MOONEY DO IT"

Thousands of people all over Western Canada are letting MOONEY make their biscuits.

They have found that MOONEY'S BISCUITS are just a little crispier, just a little creamier, just a little thinner, just a little more appetizing.

MOONEY'S BISCUITS are just good enough to take the place of the product of the home oven! Use

MOONEY'S PERFECTION SODA BISCUITS

Made in the big sanitary factory in Winnipeg.

The biscuit that's good for every meal of every day. In air tight, dust proof, damp proof packages or sealed tins.

The First Chance

Has your afternoon club adjourned for the season? No, we have one more meeting. But I thought your president had left town.

So he has. That's why we're having a special meeting. It's the only one we haven't had a chance to discuss since he was elected to office. Let's meet.

The Plenic Girl She's gold of hair and blue of eye, She never keeps her hat on, And always puts the curtain pie Just where it will be on—Judge.

Choked for Air. Some little girl becomes lodged in the bronchial tubes, others gather, and the choking of asthma results. Nothing offers such quick and positive relief as Dr. J. B. Kellogg's Asthma Remedy.

IMPERIAL DEFENCE

PREMIER BORDEN AND CABINET MINISTERS SAIL FOR ENGLAND TO ATTEND CONFERENCE WITH IMPERIAL AUTHORITIES ON QUESTIONS AFFECTING THE EMPIRE

Ottawa.—The premier and three of his ministers, Hon. Meeks, Hon. Doherty, and Hon. Macdonald, will sail for England on their imperial mission. They expect to be absent about two months.

Of great importance among the questions to be considered by the Canadian ministers in London is the question of the Canadian operation in imperial naval defence.

In connection with the premier and his colleagues, it is understood, starting out with the intention of dealing in the conference with the imperial authorities only with the broad lines of the fundamental basis of the whole problem so that a case fully matured plan may be evolved.

It is learned that the mission is either for the direct contribution by Canada of war vessels to the imperial fleet. The first issue to be settled according to the mission is the question of Premier Borden and Hon. Meeks, Hon. Doherty, Hon. Macdonald, and Hon. Macdonald, both in public and in private is the question of international relations.

The government is practically committed to demanding a permanent base for the Canadian fleet in the North Atlantic, and a permanent station in naval defence, a permanent station in naval defence.

OPPOSE CHINESE LOAN

The new Republic is experiencing trouble on all sides. It is apparent that the forthcoming loan will be lengthy and arduous.

The government is confronted on the one side with a violent opposition to the loan, which appears any suspicion about the character of the loan. The bankers who desire increased control of the government, and the government is required in the case of previous advances.

It is believed here that the government's acceptance of the bankers' proposal is a serious step, and a violent opposition on the part of the people in opposition to the loan. The unfavorable reaction with which the comparatively mild terms of supervision in the case of previous advances were met, indicate the almost universal sentiment of the people.

The government officials, however, are confident that some arrangement will be reached, and that the need of funds, particularly for the payment of the troops, is imperative.

Opposition to the loan has created a dangerous situation. The government realizes requires careful handling. In addition the government is contending with a serious growth of sentiment in favor of provincial autonomy, and the government is considered essential to the preservation of the nation.

BLOCKADE IN MONTREAL PORT
Directly attributable to strike of the Dock Laborers Union.

Montreal.—One of the most serious propositions which the Port of Montreal has faced is the strike of the Dock Laborers Union. The blockade is the grain blockade now existing.

The blockade is the worst ever experienced and is attributed directly to the London dock strike. The grain blockade is the worst ever experienced and is attributed directly to the London dock strike.

There are at the moment in the harbor a large number of ships, which cannot be unloaded. There are at the moment in the harbor a large number of ships, which cannot be unloaded.

It is the elevators that they can do no work. The sight of a couple of floating elevators along the wharves and the Canada alone would indicate trouble. It is to be seen that the ships take on what is known as "floating grain," and that take on grain through the elevators by the aid of small floating elevators. This is being done in both cases cited.

IS BUN GETTING HOT?

Something Wrong With Old Ben.—Will know effect in 1000 years.

Residence, Cal.—The old Ben, which has been detected within a year, a dark patch on the sun's surface, 10,000 miles in diameter, is a mark on the 17 inch image at the Mount Wilson observatory, and has been observed several times since its appearance last Tuesday.

The question of whether the sun is getting hot is a question of the sun's temperature. The sun is getting hot, and the sun is getting hot.

TEAM KILLED BY LIGHTNING AT CROFOOT

Other News from that Progressive and Growing Town.

Standing quietly in their stalls in the barn, a team of valuable horses owned by Jim Clark, was struck by lightning and instantly killed during the recent storm. A curious incident was that the barn was practically untouched.

The Crawford Farming Company has started upon the concrete foundation and basement the full size of the house is to be 28x36.

Mr. F. J. Palmer has started a nice little cottage house.

The Clark Bros. went up with three car loads of horses to show at the Calgary Fair. Look out for their luck in next week's issue.

Mr. Getty and Mr. Kynholts moved back to Springfield Alberta until the time for harvesting.

Mr. Porter went to Calgary Wednesday, no business.

Several of the Crawford sports took in the fight at Bassano on Thursday.

Mr. and Mrs. P. Robinson and Miss M. Robinson went to Glenora on Thursday.

Mr. Barnette left for Calgary to take in the exhibition. From there he went to England.

Mrs. John Clark Jr., and son, went to Calgary on Wednesday for a few days.

The fine rain which fell on Thursday was just what we wanted. A little more would do good as the crops are rather dry.

WEDDING BELLS.

The marriage of Sergei Fletcher, of the R. N. W. M. P., and Miss Dorothy Wallis, of Natchez, Alberta, was solemnized last week at Natchez.

W. R. Playfair, of Bassano, entered out with the bridegroom and acted as best man. Canon Stocken, of Glenora, performed the ceremony, at which the happy pair motored to Glenora, taking the train there for Emerald Lake. The best wishes of all his colleagues on the force were with Sergei Fletcher.

TOWN OF BASSANO.

By-Law No. 14.

ANY-LAW OF THE TOWN OF BASSANO to raise the sum of \$150,000.00, to be expended on the construction of a complete sewerage system, a complete system of town sewers and a complete outfall sewer system.

WHEREAS it is deemed desirable to construct a complete system of town sewers and a complete outfall sewer system for the Town of Bassano.

AND WHEREAS a Certificate of Approval of the Plans and Specifications for the said system has been obtained from the Provincial Board of Health at Edmonton.

AND WHEREAS it is necessary to raise by way of loan, on the credit of the Town of Bassano, the sum of \$150,000.00 for such purposes.

AND WHEREAS in order to carry out the said work it is expedient that there should be borrowed by the Municipality of the Town of Bassano, the said sum of \$150,000.00 for the purposes aforesaid, and that the indebtedness created be spread over a period of thirty years, and that the said indebtedness bear interest at the rate of five per centum per annum.

AND WHEREAS the amount of the whole moneys payable of the Town of Bassano, according to the last revised assessment roll is \$1,455,770.00.

AND WHEREAS the total existing debt of the Municipality outside of the debt due for current expenses of the year is the sum of \$2,000,000.00 part of which is in arrears.

AND WHEREAS it is expedient that the said debt be paid off as follows:

NOW THEREFORE the Municipal Council of the Town of Bassano, duly assembled, enacts as follows:

1. That the Mayor and Secretary-Treasurer of the Town of Bassano are hereby authorized and empowered to borrow, on behalf of the Town, a sum not exceeding the sum of \$150,000.00.

2. That the said sum shall be expended in the construction of the aforesaid works, and for the purpose of raising the said loan one or more Debentures of not less than five hundred dollars each, of the said Town, not exceeding in the aggregate the sum of one hundred and fifty thousand dollars, as aforesaid, shall be issued, and shall be payable in thirty years from the date thereof, in thirty equal consecutive instalments of principal and interest at the Union Bank of Canada, Bassano, Alberta.

3. Each of the said Debentures shall be signed by the Mayor and Secretary-Treasurer of the Town of Bassano, and sealed with the seal of the Corporation of the Town of Bassano.

4. The said Debentures shall bear interest at the rate of five per centum per annum, and shall have attached to them coupons for the payment of the several annual instalments of principal and interest, which coupons shall be signed by the Mayor and Secretary-Treasurer of the Town of Bassano.

5. This By-law shall take effect and come into force on the first meeting thereafter.

6. During the currency of the said debt there shall be raised annually, by

PRIZE WINNING B. C. FRUIT Lands

OW N a five acre fruit and poultry tract (or more) in British Columbia and be independent for life! \$20 down and \$10 a month pays for it. No interest, and payments extended in case of sickness. From \$800 to \$1,500 per acre realized by ranchers in this famous prize winning district, the Main Kootenay Lake. Ideal climatic conditions, to rainy seasons on the coast; no dry seasons or irrigation needed as in the Okanagan and Cranbrook districts. See Government reports. The main lake never freezes over and boats run the year around—see reports of other districts. I spent years in finding this ideal spot; I live there myself. I call my own fruit ranch—Ojibwa—"The Honeycomb Place." Send for my booklet entitled "Honeycombing." It tells you all you want to know about that great British Columbia country, and there are scores of questions answered.

The new booklet, "Harris' New Method of Apple Culture," tells you how apples can be made to come into commercial bearing the second year. The old way you had to wait five years. Where a farmer made \$1,500 he can now make \$3,000 per acre. It is free if you will send me the names of ten of your friends or relatives who may be interested in buying fruit lands. I have sold to over 600 people the last four months and will be pleased to send you copies of some of the nice letters that they have written to me, which I received from those who have visited their holdings, which I picked out for them.

I refund you your money, if after seeing the tract I select for you, you are not satisfied with it, or with the rest I have to offer. If you cannot go on to your tract and wish to retain your position for a few years and spend your vacation out there, I will agree to plant it and take care of it for you five years at a small additional cost and give you a share of the profits from crops. I allow you a discount of ten per cent cash and give you a good commission in case you can secure buyers for me.

My monthly price list for wild and improved tracts will interest the most careful buyer. My next excursion will be leaving Winnipeg June 27, and I will be pleased to have you join me. Send for my famous "Kootenay Magazine," issued monthly, illustrated and full of good things about that wonderful country. \$2.50 per year, or 25c for sample copy. A year's subscription for 20 names and addresses (written full) of people interested in B. C. fruit lands.

Write me at once, giving name of a reliable reference, your nationality, amount you wish to invest, and I will forward booklet, map, etc. Address me personally at head office:

PSORIASIS

It was cured

After Five Years of Suffering

Three Doctors Failed to Cure

Case Was Incurable

Itching and Burning Was Terrible

Until Relief and Cure Was

Effected by

DR. CHASE'S OINTMENT

Fornia to another name for

chronic eczema. It is the

most of this dreadful itching skin

disease. Once it has reached

this stage it is usually considered

incurable.

But here is a case which proves

again the wonderful healing power

of Dr. Chase's Ointment. Not only

does relief come quickly, but the

relieving effects are thorough and

lasting.

Mrs. Nettie Massey, Concord, Ont.,

writes: "I thought it my duty to

write you telling you the great bene-

fit I received from using Dr. Chase's

Ointment. For five years I suffered

with what three doctors told me

was an incurable skin disease. I

was offered to amputate my leg

for \$500 to keep my money in my

pocket, as I could not cure it.

The disease spread all over me,

even on my face and hands. The

itching and burning was terrible. At

last my brother read in the paper

about Dr. Chase's Ointment. I

tried it, and I am entirely cured.

I would have been a doctor of a

sore to be able to say. I can hardly

praise the ointment enough, and you

are at liberty to use my testimony.

I hope this notice to induce other

sufferers to try it.

TO CONSERVE MOISTURE

Written by E. B. Meade, Esq.,

Colorado Experiment Station,

Fort Collins, Colorado.

It is well known that ground

water is kept from the soil by the

moisture which seeps into the air

and is lost as far as the plant

growing in that particular field

is concerned, and if anything can

be done to hold this moisture in the

ground so that it may reach the

plant growing there, it is a great

thing to strive for, and will prove

beneficial to the plant growing in the

field.

Some years ago one of the repre-

sentatives from the Agricultural Col-

lege was visiting an up-state farm-

er in the country, and the farmer

showed him a field of wheat which

illustrated this harvesting in a re-

markable manner.

A storm had passed over that sec-

tion of the country and about one and

a half inches of rain had fallen. It

had been a drenching shower and had

pounded the surface of the ground con-

siderably. The grain was from four

to six inches high, and the farmer

had been able to harvest the ground

without any special machinery. He

had hired a man to do the work, who

had been told to harvest the grain

diagonally across the field of wheat,

and then around the outside of the

field, and some five or six lines of

grain had been harvested. The farmer

became disgusted with the work be-

cause the grain was so much of the

grain that he had been told to har-

vest, and he had been told to har-

vest diagonally across the field of

wheat, and then around the outside

of the field, and some five or six

lines of grain had been harvested.

The farmer became disgusted with

the work because the grain was so

much of the grain that he had been

told to harvest, and he had been

told to harvest diagonally across

the field of wheat, and then around

the outside of the field, and some

five or six lines of grain had been

harvested. The farmer became dis-

gusted with the work because the

grain was so much of the grain that

he had been told to harvest, and he

had been told to harvest diagonally

across the field of wheat, and then

around the outside of the field, and

some five or six lines of grain had

been harvested. The farmer became

disgusted with the work because the

grain was so much of the grain that

he had been told to harvest, and he

had been told to harvest diagonally

across the field of wheat, and then

around the outside of the field, and

some five or six lines of grain had

been harvested. The farmer became

disgusted with the work because the

grain was so much of the grain that

he had been told to harvest, and he

had been told to harvest diagonally

across the field of wheat, and then

around the outside of the field, and

some five or six lines of grain had

been harvested. The farmer became

disgusted with the work because the

grain was so much of the grain that

he had been told to harvest, and he

had been told to harvest diagonally

across the field of wheat, and then

Frost & Wood Binders

Meet the hardest conditions of cutting and

binding. Do the work well.

The total number of cremations in

Great Britain during 1911 was 1,023,

which shows an increase of 177 as

compared with 1910. These figures

of the Working Crematorium in

1911, there have been 3,384 crema-

tions in Great Britain. At the present

time there are 12 crematoriums in

Germany, and of which started op-

eration last year. A law has been

recently passed permitting cremations

in Prussia.

In Switzerland there are now ten

crematoriums, three of which belong

to the municipalities of Basel, Grenchen

and Zurich. There are 470 crema-

tatoriums in Switzerland in 1910.

There are about 100 crematoriums

in the United States, twenty-

eight in Italy, five in Russia, one

in Denmark, and one in Montreal,

Canada.

The beautiful crematorium in

Montreal was opened in 1903 and up

to the present time 411 cremations took

place there.

Glenn Gulick and Bert Ketchum were guests over Sunday at the Marchion ranch south of town.

George Bond, agent for Louis Williams, is taking up his residence in Bassano. He arrived from Seattle last week.

Louis Williams, representing the Basano Board of Trade, will give a series of lectures illustrating Basano prospects in several of the coast cities. He leaves Bassano this week end for Victoria, Vancouver, Seattle and Spokane.

Quality

"You men talk quality as if your life depended upon it" said a man recently. What else has killed criticism, what else has met competition. Quality is the thing that makes machines as it makes men. It makes them fit for the work they are set out to do. Gives them staying power—gives them dependability—gives them value. This is you get by dealing with

AROUND TOWN

W. Cinnamon and W. Anderson, of Barry Creek, were visitors in town this week.

S. W. Johnston was in town this week from Vulcan.

For sale—A fine new horse, standard make. Inquire at News office.
Constable W. Smith, of Brooks, was in Bassano Tuesday.

Coun. and Mrs. W. J. Robinson went up to Hank Wednesday morning.

Roy Smith and D. A. Clark went up to Calgary for the week end.

W. A. W. Haines and Frank Marchion spent Tuesday in Calgary.

Mr. and Mrs. A. J. Gerber spent the holiday in Calgary.

Mr. and Mrs. H. Harris, of Standard, visited relatives in Bassano last week.

J. J. Lockerty, of Toronto, was in Bassano last week.

Louis Williams was a Calgary Fair visitor last week.

A. A. Stewart and H. Griffin, of Ploverdale, were visiting friends in Bassano Dominion Day.

Mr. and Mrs. George Henderson, of the Berkeley Hotel, spent Dominion Day in Calgary.

W. R. Hodgson and Miss Hodgson, of Lethbridge, were visiting in Bassano this week end.

Mr. and Mrs. Chisholm, of Kinnelon, were visiting in Bassano this week.

Mr. and Mrs. R. W. Currie, of Stoughton, were in Bassano over the week end.

Four pairs of socks for a quarter. Four pairs of canvas gloves for a quarter. These are samples of our prices. Come and investigate and you will be satisfied you cannot get anything better or cheaper. Hub Supply Co., opposite the Hunter Hotel.

Bassano visitors to Calgary for the fair Dominion Day included Ken Marchion, T. H. Hunter, G. M. Pierce and W. K. Laird.

R. S. McConaghey is recuperating from a severe attack of pneumonia, his many friends around Bassano will be pleased to hear.

Just received a shipment of groceries which we are disposing of at cost. Hub Supply Co., opposite Hunter Hotel.

Wanted—Contract for breaking a section of land, or thereabouts, with Ramsey Oil Pull Engine.—T. A. Dowdell, Bassano, Alberta.

Reports state that our worthy townsman, Chas. Harris, is faring extremely well from a business standpoint in San Diego.

W. G. Lindsay, of Regina, spent several days in Bassano last week. He returned by telegraph that his family had been unharmed by the cyclone he spent several anxious moments. Mr. Lindsay left via the Dorothy stage on Wednesday to visit his brother's ranch at Hand Hills.

N. P. Sturgess, of Des Moines, Iowa, who owns considerable land in the Basano vicinity, is here on his regular inspection visit, and is greatly impressed with the bright crop prospects this year. He says he has never seen anything so promising in Western Canada before, and intends staying until harvest time.

Wheat two feet high and heading out—No wonder Walter Kelly is wearing the big smile.

He has over three hundred acres in wheat, and the wheat is a single blade but is two feet high. "I've never seen anything so promising since I have been in the country," he said to The News.

Coun. W. J. Robinson is also showing samples of wheat from his quarter north of the town that is heading out already. "It is at least three weeks ahead of last year," he says.

Brighten Up

PAINTING season is here. The house probably needs re-painting, both for protection against the weather and for the sake of its appearance. There is nothing that will show better returns for the time and money spent at housecleaning time than paint and varnish used inside the house. Come in and tell us what you wish to paint or varnish and we will show you a Brighten Up Finish that will do it, and do it properly.

SHERWIN-WILLIAMS Brighten Up Finishes

are a line of paints and varnish which do exactly what they are intended to do, giving a right treatment to each surface. It is impossible to obtain one paint or varnish that is suitable for a wide variety of uses, so it is very important to obtain a product that is exactly suitable for the purpose you have in mind.

"Get Your Canadian Home from Canadian Pacific"

WESTERN CANADA'S DAY

This has been referred to as Canada's Century. In Western Canada we use no such general term. This is Canada's century, decade, year, month, week and day. With the passing of each twenty-four hour period, new business blocks and homes are under construction, new lines of railway have pushed on a little farther, and each day is brighter than the one preceding.

There is no safer or surer investment today than farm lands, or town lots, in Manitoba, Saskatchewan, and Alberta. If you wish your dollars to work every Western Canadian Day, call on or address
